

PIONEERING GASTROENTEROLOGY AND BARIATRIC (WEIGHT) SURGERY

Arihant Hospital, in its commitment to expanding super-speciality healthcare in North Karnataka, proudly unveils its Comprehensive Liver Care Centre in Belagavi. This initiative, in partnership with the Institute of Laparoscopy & Gastroenterology (ILG) Hubballi, is set to revolutionize liver disease treatment in the region. The Centre will cater to a wide spectrum of liver conditions, including Biliary Tract Disease, Alcoholic Liver Disease, and Non-alcoholic Fatty Liver Disease (NAFLD). Offering state-of-the-art treatment methodologies, such as laparoscopic surgery and innovative procedures like Transcatheter Arterial Chemoembolisation (TACE), the Centre is geared to handle complex liver ailments. Equipped with cutting-edge technology and medical expertise, this facility is a beacon of advanced liver care, ensuring patients access to superior healthcare services in one of India's most technologically advanced hospitals.

BARIATRIC SURGERY

At Arihant Hospital, a leading-edge centre in India, bariatric surgery is more than a weight loss procedure; it's a gateway to renewed health and vitality. With obesity impacting 30-35% of India's populace, Arihant offers innovative solutions like Gastric Balloon and Bariatric & Metabolic surgery, aligning with global standards.

GI PROCEDURES

- Colonoscopy
- Upper Gastrointestinal Endoscopy
- Endoscopic Ultrasound
- ERCP/ MRCP
- Gastric Band Surgery
- Duodenal Stenting
- PEG (Percutaneous Endoscopic Gastrostomy) Tube Placement

This surgery is not only a formidable weapon against obesity but also can be a significant defence against diabetes. Tailored to individual requirements, from gastric banding to bypass, these procedures promise optimal outcomes. Choose Arihant Hospital for a transformative experience that redefines your health narrative, empowering you to reclaim control over your life and well-being.

LIVER TREATMENT PROCEDURES

- Liver Surgery for Liver Cancers
- Minimally Invasive Interventional procedures for Liver diseases
- Complete evaluation and expert management of liver related ailments
- Alcohol Related Liver Disease
- Viral Hepatitis
- Fatty Liver Disease
- ERCP - Endoscopic Retrograde Cholangiopancreatography
- Upper GI Scopy
- Lower GI Scopy

PIONEERING KIDNEY AND URINARY HEALTH

NEPHROLOGY AND UROLOGY

The Nephrology and Urology department at Arihant Hospital is equipped with cutting-edge technology and led by a team of experienced nephrologists and urologists. The department offers comprehensive care for a wide range of kidney-related and urinary tract conditions, ensuring patients receive optimal treatment and care.

NEPHROLOGY SERVICES :

Chronic Kidney Disease (CKD) Management: Early detection, prevention, and treatment plans for CKD. Dialysis Services: Comprehensive dialysis care, including hemodialysis, peritoneal dialysis, and critical care dialysis (SLED, SCUF, plasmapheresis, hemadsorption, and poisoning management). Kidney Transplantation: Evaluation and preparation for kidney transplant, including post-transplant care. Hypertension Management: Specialized care for managing hypertension related to kidney

diseases. Glomerular Diseases: Diagnosis and treatment of glomerulonephritis and other glomerular diseases.

UROLOGY SERVICES :

Endoscopic Procedures: Minimally invasive techniques for treating urinary tract conditions. Stone Management: Advanced treatment for kidney stones, including lithotripsy and endoscopic stone removal. Prostate Surgery : Minimally invasive procedures for benign and malignant prostate conditions. Urological Oncology : Comprehensive care for cancers of the urinary tract, including bladder, kidney, and prostate cancers. Advanced surgical techniques for reconstructing the urinary tract.

Renal Transplant Surgery :

One of the few centers in North Karnataka performing both live-related and cadaveric kidney transplants.

JOINT AND KNEE SUCCESS: ROBOTICS TRANSFORMING REPLACEMENT

At Arihant Hospital, we redefine orthopedic excellence with our Total Hip Replacement (THR) and Total Knee Replacement (TKR) surgeries, integrating the precision of robotic technology. By choosing us, you're opting for a swift and efficient path to mobility. Our THR procedure is a testament to our commitment to minimally invasive techniques, enabling you to walk with ease and minimal discomfort post-surgery.

Robotic Knee Replacement is a groundbreaking approach that enhances accuracy, reduces pain, and facilitates faster healing. Our robotic assistance ensures the perfect alignment and placement, crucial for the longevity of your knee implants and the preservation of natural movement.

Our team, consisting of elite surgeons and technologists, is dedicated to a

holistic care experience. From the moment you enter Arihant Hospital, through your treatment, and into your recovery phase, we offer personalised care designed to make your journey toward recovery as comfortable and stress-free as possible. Trust in our hands, and take a step towards reclaiming an active, pain-free life.

PROCEDURES

- Total Hip Replacement.
- Total Knee Replacement.
- Unicompartmental Knee Replacement.
- Shoulder Joint Replacement.
- Reverse Total Shoulder Replacement
- CORI Robotic Knee Replacement Surgery
- Total Elbow Replacement.
- Wrist Joint Replacement (Wrist Arthroplasty) Arthritis of the Foot and Ankle

BRAIN POWER: UNLOCKING NEUROLOGICAL SOLUTIONS

Navigating through a neurological condition demands exceptional care and expertise. Our team of skilled neurologists is equipped to address various neurological issues, encompassing the brain, spinal cord, peripheral nerves, muscles, and the autonomic nervous system.

We offer prompt, specialized stroke care, including vital consultations on Electroencephalography (EEG) testing and its interpretations. Our dedicated stroke clinic is prepared 24/7 to deliver acute care, with treatments like IV Thrombolytic Therapy for urgent ischemic stroke cases. Our expertise extends to various cerebrovascular disorders, including cerebral venous thrombosis and cerebral haemorrhage; we also specialize in managing neuromuscular paralysis conditions like Guillain-Barré syndrome.

Additionally, our comprehensive care covers a spectrum of neurological conditions: from epilepsy, focusing on cases like temporal lobe epilepsy,

to different headache syndromes, including migraines; from movement disorders such as Parkinson's disease to complex seizure disorders, including status epilepticus; and sleep disorders like narcolepsy. Our approach is to provide treatment and a pathway to improved quality of life for our patients.

PROCEDURES

- Stroke Clinic

ARIHANT HOSPITAL

Arihant Hospital is a Dixit Healthcare Pvt Ltd. unit, a 100-bed multi-specialty hospital with state-of-the-art infrastructure, amodular operating rooms, a cath lab, ITU, CCU, ICU, and five-star rooms. We also offer some of the best patient services in the area!

We believe that exceptional patient care begins with our staff. We have some of the most skilled, compassionate doctors and nurses who have many achievements. We're proud that many of our doctors have been recognised by their peers for their field expertise.

Whether you are seeking treatment for a condition such as heart disease or cancer, or you would like to learn about

bariatric surgery options, we can help you find a solution that fits your needs.

We have an ambulance, 24/7 Pharmacy, Pathology, CT Scan and X-ray facility.

Arihant Group has flourished under the leadership of **Sahakar Ratna Shri Raosaheb Patil** and his sons, **Shri. Abhinandan and Shri. Uttam Patil**. As a group involved in multiple sectors like cooperative societies, education, farming, entrepreneurship, textile and sugar industries, and skill development, Arihant Group wanted to give more to the community through healthcare after seeing the havoc caused by the COVID-19 pandemic.

- Patients are the biggest beneficiary among all the stakeholders.
- Accreditation results in high quality of care and patient safety.
- The patients are serviced by credentialed medical staff.
- Rights of patients are respected and protected. Patient's satisfaction is regularly evaluated.
- Finally, accreditation provides an objective system of empanelment by insurance and other third parties. Accreditation provides access to reliable and certified information on facilities, infrastructure and level of care.

DR. MAHADEV D. DIXIT

Chief Cardiac Surgeon | MBBS, MS (General Surgery), DNB (CVTS), FIACS, PhD

Dr. Mahaadev D. Dixit is one of India's most esteemed cardiac surgeons, with over **33+ years of experience** in open heart surgeries.

He has performed **35,000+ plus open heart surgeries** in his astounding career, of which **10,000+ are pediatric**. He is constantly involved in complex pediatric cardiac surgeries like Arterial Switch Procedures, Pulmonary Conduits, Fontan procedures, Sennigs procedures, etc. He is one of the few doctors who operate on the entire spectrum of cardiac surgeries - from neonatal to transplants, including Minimal Access Surgeries. He has also performed Neonatal cardiac surgery on a baby weighing 900 grams.

He has an MBBS degree from JNMC, Belagavi and an MS in General Surgery from Government Medical College, Bellary. He received his Diplomate of National Board - Cardiovascular

Thoracic Surgeon from Bombay Hospital, Institute of Medical Sciences, Bombay. He was the first person to perform robotic heart surgery in Karnataka.

Dr. Dixit is a life member of the Society of Pediatric Surgeons: USA, the European Association of Cardiothoracic Surgeons, a Trustee at Asia Heart Foundation, involved in building heart hospitals across the country, and the Chairman of Priyadarshini Eye Healthcare and Research Foundation Belagavi.

Earlier, Dr. Dixit worked as a Professor & HoD of CTVS and has been a keen teacher and examined for both MCh (CVTS) & DNB (CVTS). His research, Bent of Mind, led him to obtain his PhD from KLE University; at present, his field of study has played an influential role in the aetiology of Coronary Artery.

CARDIOTHORACIC SURGERY: SAVING LIVES DAILY

Arihant Hospital with it's cutting-edge technology and equipment for cardiac surgery, making it a premier, state-of-the-art facility. Staffed with expertly trained doctors, nurses, and technicians, the hospital specialises in a comprehensive range of cardiac surgical procedures. These include Adult Cardiothoracic and Vascular Surgeries, as well as Paediatric Cardiac Surgery. The department of Cardiothoracic and Vascular Surgery is led by a distinguished surgeon, renowned for performing a significant number of surgeries in Karnataka, and achieving an impressive success rate. This exemplary record underscores the hospital's commitment to safe, efficient, and highly successful surgical outcomes, ensuring patients receive the best possible care with minimal complications. Arihant Hospital stands as a beacon of excellence in cardiac care.

MINIMALLY INVASIVE CARDIAC SURGERY (MICS)

This procedure involves making minor incisions on either the right or left side of the chest. Surgeons utilise these small openings to conduct complex heart surgeries, offering a less invasive alternative to traditional sternotomy. Minimally Invasive Cardiac Surgery (MICS) is both safe and effective. It is suitable for a broad spectrum of

heart-related operations, reducing recovery time and physical impact on the patient compared to more extensive surgical methods.

- SURGERIES**
- ASD / Mitrial Valve Repair and Replacements / AVR / CABG

- PROCEDURES**
The department is equipped with the best machines manned by highly skilled technologists and doctors.
- Coronary Bypass Surgery / Beating Heart Surgery (off-pump)
 - Heart Valve Replacement Surgery
 - Mitral and Aortic Valve Repair Surgery
 - Heart failure Surgeries
 - BT shunt - inserting a tube to / Glenn / PA Banding
 - Closure of septal defects - ASD, VSD, ICR, TOF and all types of Complex Surgeries
 - Arrhythmia procedures

- BENEFITS**
- Less pain and less risk of infection.
 - Reduces ICU and Hospital stay
 - Less blood loss and blood transfusions
 - Early return to work (3 to 5 Days Stay)

EMERGENCY UNIT: RAPID RESPONSE TO SAVING LIVES

At Arihant Hospital, we're vigilant and swift in our response to emergencies, ensuring that your health and safety are always safeguarded. Our hospital is equipped with state-of-the-art medical facilities and technologies, enabling us to offer comprehensive care—from urgent, life-saving treatments to regular health management. We excel in delivering prompt and efficient care in critical situations such as accidents, cardiac arrests, strokes, or respiratory emergencies.

Our dedicated team, skilled in emergency response, stands ready around the clock. With ambulances outfitted with vital life-support equipment, we ensure swift transportation for immediate care. Our pharmacy, radiology, and laboratory services operate non-stop, providing seamless support to our emergency

teams 24/7. Place your trust in Arihant Hospital, where we're committed to providing you and your loved ones with the utmost care and attention at a moment's notice, ensuring the highest standard of medical support.

CRITICAL CARE UNIT: COMPASSION MEETS TECHNOLOGY

When it comes to the well-being of your family, you naturally seek the highest level of care. Arihant Hospital understands your priorities and is dedicated to delivering top-tier treatment through our cutting-edge Critical Care Unit (CCU).

Our CCU is specifically designed to cater to individuals facing critical heart-related conditions such as heart attacks, post-heart failure monitoring, arrhythmia, cardiomyopathy, unstable angina, heart infections, and post-heart surgery recovery. Here, our healthcare professionals, including skilled doctors and nurses, possess specialized expertise in cardiac care and intensive care management. This proficiency is vital as CCU patients often grapple with concurrent health complications like kidney failure, respiratory distress, sepsis, and infections. Our team ensures optimal recovery and the prevention of further complications.

Equipped with the latest medical technologies, including ventilators and dialysis machines, our CCU also offers Extracorporeal Membrane Oxygenation (ECMO) support for ventilator-dependent patients. To ensure continuous care, Arihant Hospital maintains a dedicated team of trained intensivists who are available 24/7 to swiftly identify life-threatening symptoms and initiate necessary treatment.

At Arihant Hospital, we prioritize your family's health and well-being, providing exceptional care when it's needed most.
